

HOPE TURNBULL

Hope Turnbull, b. 1999, Newcastle Upon Tyne, UK, studied a BA from Edinburgh College of Art (2021) and is currently completing her MA at City of Guilds of London Art School. Her large scale oil paintings depict lived experiences, drawn and are filtered through memory of emotion to create psychologically charged domestic spaces that reference the history of representational painting, Hopper, Vermeer, Cassat. Mostly alone, or in a pair, the figures enact the routines of daily life, ironing, washing, sitting and thinking or watching television.
